HOUSING AUTHORITY

ADMINISTRATIVE REPORT

FROM

11th October, 1976

TO

30th September, 1980

1980

HOUSING AUTHORITY

REPORT ON THE WORKING OF THE HOUSING AUTHORITY FROM THE DAY OF ITS SETTING UP ON 11th OCTOBER 1976, UP TO 30th SEPTEMBER, 1980

1. SETTING UP

The Housing Authority was constituted in terms of Act XV of 1976.

The Members of the Housing Authority were appointed on the 11th October, 1976, as per Government Notice No 510 of the 8th October, 1976, for a period of one year. These were Mr Leone Fenech - Chairman, Mr Lewis Glanville and Mr Raphael Mamo - Members. They were subsequently re-appointed annually for periods of one year.

2. FUNCTIONS

The functions of the Housing Authority as laid down in Act XV of 1976 are: to develop, to promote and finance the development of, and to administer housing estates and other residential and commercial accommodation and related facilities and amenities, to promote and finance home ownership and generally to improve housing conditions in Malta.

3. CABINET DIRECTIVES

Cabinet directives regarding the sale of residential properties, offering of plots under the Home Ownership Scheme, subsidy in the purchase of residential properties and the building of residential premises on Home Ownership Plots etc. were published on 18th January, 1977.

4. POLICY

The Housing Authority published, and made available to the public, its policy on the 1st February, 1977. This policy

refers to:

- (i) sale of residential properties both occupied and unoccupied,
- (ii) grant of Home Ownership Plots,
- (iii) subsidy in the rate of interest both for the purchase of residential property and in the building of houses on the Home Ownership Scheme Plots,
- (iv) allocation of premises for habitation:
 - (a) new Government premises on the points system,
 - (b) old Government premises directly to deserving cases and on the points system,
 - (c) Requisitioned Premises directly to Government Evictees, Danger Cases and Humanitarian Cases in Special Circumstances,
- (v) rent to be fixed in relation to the income of applicant.

A revised edition of the policy of the Housing Authority was published in January, 1979. The Authority has just prepared another completely revised text of its policy and forwarded it to the Minister of Justice, Land, Housing and Parliamentary Affairs for approval.

5. STAFF MATTERS

The staff detailed to perform duties with the Housing Authority has been constantly increased and changed according to the needs of the Authority. On 30th September, 1980, the staff on loan with the Housing Authority was composed as follows:

- 1 Grade III - A.O. (Secretary)
- 2 Grade II - E.O.

2 Technical Officer I (On loan from Ministry of Works and Sports)

9 Grade I - Clerk

2 Messenger I

2 Group A

1 Student Worker

It is envisaged that the staff complement will be increased by one (1) Assistant Head, one (1) Professional Officer, one (1) Grade II - E.O., three (3) Works Technical Officers, one (1) Messenger/Driver and two (2) Group A and decreased by two (2) Grade I - Clerks and one (1) Messenger I.

6. BOARD MEETINGS

The Members of the Board normally attend for eleven (11) sessions per week of a minimum of three hours duration per session.

Sessions are held during mornings and afternoons/evenings from Monday to Saturday. The number of formal meetings held by the Authority from 11th October, 1976, to 30th September, 1980, totalled 1,069. The Authority held also other special meetings with representatives of the Public Works Department and the Land Department, and the Housing Secretary.

7. HOUSING INSPECTIONS

In order to carry out its work as accurately as possible the Authority set up an inspectorate section to investigate the cases which come before it.

Up to 30th June, 1979, the number of inspections carried out by the Housing Inspectors, and occasionally even by the Members

of the Board themselves, amounted to (3,200) formal inspections (Housing Reports) and about (1,600) informal inspections (site inspections, surprise visits etc.) These inspections are now being carried out by the Housing Officers of the Housing Department with the exception of inspections in connection with allocations on the points system which are still being carried out by inspectors on the staff of the Housing Authority. From 1st January, 1980, to 30th September, 1980, the Authority carried out 722 Housing Inspections in connection with the allocation of flats and the allotment of Home Ownership Scheme Plots on the points system. About 200 follow up site inspections were also carried out in terms of the deed of emphyteusis regarding plots already granted to beneficiaries.

8. ALLOCATION OF OLD PREMISES

Following the appointment of Dr J Brincat as Minister for Housing, he directed that old premises, both Government-owned and private requisitioned ones, were to be allocated on the points system after being advertised. The first Notice (Notice No 01) was published on 31st August, 1979 - Appendix V).

In view of serious medical and other humanitarian cases a Board was later set up to allocate directly to such deserving cases which do not qualify under the points system.

This Board is composed of the Housing Secretary, a Social Worker seconded from the Department of Social Services and a representative of the Ministry of Justice, Land, Housing and Parliamentary Affairs.

9. PUBLIC RELATIONS OFFICE

In order that the public may be better served a Public Relations Office was created. Complaints by the public regarding allocations are also lodged at this office in order to be investigated. Notwithstanding this arrangement, however, the Public still insist to talk to officials at the Ministry with the result that the Minister's Office is daily inundated with people seeking help in connection with their housing problems. In this connection it is to be emphasised that the Housing Policy has been made public and is strictly being pursued in the allocation of premises and plots.

The Public Relations Officer issues Press Releases from time to time, regarding successful applicants both as regards allocation of flats and houses as well as allotment of Home Ownership Plots.

10. ALLOCATION OF FLATS

New Government Flats are offered for allocation on the points system after they are advertised in the Government Gazette. To date, the Housing Authority has published 51 Advertisements of flats for letting as detailed below:

<u>Date</u>	<u>Adv. No.</u>	<u>No of Flats Advertised</u>
11th March, 1977	1	54 Flats ✓
15th April, 1977	2 to 11	66 Flats ✓
30th October, 1977	12 to 26	193 Flats ✓
2nd June, 1978	Additional	118 Flats ✓
7th July, 1978	Additional	7 Flats ✓
27th December, 1978	27 to 51	334 Flats ✓
18th March, 1980	Additional	11 Flats ✓
18th April, 1980	Additional	17 Flats ✓

Details regarding localities and applications received can be seen in Appendices I, II, IIIA, IIIB, IV and IVB.

All advertised flats have been allocated and the Authority is already preparing a fresh advertisement.

11. SALE OF VACANT HOUSES

The Housing Authority is giving priority to the sale of vacant houses.

Advertisement No 1 was published on 15th September, 1978. 321 houses in various localities in Malta were advertised for sale. Further details regarding the applications received are given in Appendix VI. By 30th September, 1980, 300 deeds of sale and loan were drawn up. 288 applicants availed themselves of £11,009,975 in loans from Lohombus Corporation Ltd. at subsidised rates of interest. 12 houses were sold by outright purchase. The Authority is already making the necessary preparations for the publication of the next advertisement.

12. OCCUPIED HOUSES

The Authority requested tenants of Government houses in the housing estates of San Gwann, Ta' Giorni, Santa Lucia, Ta' Xbiex as well as tenants of Government premises in Valletta and Floriana to state if they had any interest in purchasing their residence. Out of 800 tenants more than 230 have signified their intention of doing so. However, most of them changed their intention of buying. By 30th September, 1980, 23 occupied tenements were sold. 12 applicants availed themselves of £M41,700 in loans from Lohombus Corporation Ltd. at subsidised rates of interest. 11 houses were sold by outright purchase.

The Authority received also several applications from tenants of Government houses in various other localities in Malta and Gozo who wish to buy their residence. It is hoped that the sales of more occupied houses will be concluded in the near future.

13. HOME OWNERSHIP SCHEME PLOTS

Government Notice No 575 was published in the Government Gazette on 27th September, 1977. ²²⁶ 266 plots in Malta and Gozo were advertised. Details regarding localities and applications received are shown in Appendix VII. Up to 30th September, 1980, 113 deeds of emphyteusis were drawn up. 56 applicants intend to avail themselves of loans from Lohombus Corporation Ltd at subsidised rates of interest. The total amount of approved loans is £M168,700. This figure is smaller than that given for 31st December, 1979, since some applicants advised Lohombus Corporation Ltd that they would not be availing themselves of any loans.

The Housing Authority is now following up progress of work in connection with the houses being built on these plots according to the terms and conditions of the deed of emphyteusis.

On 27th September, 1979, 1,082 plots in various localities in Malta and Gozo were advertised for allotment (Vide Appendix VIII).

All preliminary work in connection with the allotment of these plots has now been completed and deeds in respect of plots situated on land already transferred to the Authority are being drawn up regularly.

Up to 30th September, 1980, 14 deeds of emphyteusis were drawn up. 2 beneficiaries intend to avail themselves of £M10,000 in loans at subsidised rates of interest.

14. LOANS FROM THE RESETTLEMENT FUND OF THE COUNCIL OF EUROPE

It is the intention of the Housing Authority to establish a

revolving fund to be able to finance its projects. As a first step in establishing this fund the Authority availed itself of an offer of a loan from the Council of Europe Resettlement Fund. The loan is for 3 million DM at an average interest rate of 5.24%.

A further mixed loan of 750,000 Swiss Francs was raised on 10th July, 1980, at an average rate of interest of 4.5%.

15. EX SERVICES PROPERTY

10 Units at Mtarfa Married Quarters were transferred to the Authority. Repair works were effected. Those units together with 36 ex Officers Married Quarters at Luqa will soon be advertised for sale take quote to local applicants. The Housing Authority deals also with the allocation of ex Services Properties and Hirings, many of which have already been let for touristic, commercial and administrative purposes to Parastatal and Civil Government Bodies through the Commissioner of Land.

16. BUILDING PROGRAMME

Though more than 5,000 units have been built during the last five years, the Maltese Government in an effort to continue meeting the basic needs of the community for better housing, approved the projects of two (2) new Housing Programmes, after it was found that for 66 and 193 flats advertised, the Authority received more than 5,000 and 10,000 applications respectively. Therefore, apart from preparing Home Ownership Scheme Plots to be advertised for allotment, the Authority also decided to embark on two (2) new Building Programmes. Work on the first Building Programme which will include the construction of 266 flats in various localities in Malta is at an advanced stage. It is expected that it will be brought to completion by the end of this

year. This programme will include also the building of two (2) stores at Senglea on which work has been taken in hand.

The Second Building Programme of the Authority will consist of erection of 65 dwelling units and 11 shops. Planning has already been taken in hand.

17. MARSA BY PASS

Out of 198 dwellings at Maria Regina Housing Estate, Marsa, 160 dwellings (110 by former Minister of Housing and 50 by the Authority) were allocated to evictees affected by the Marsa By Pass Project. The remaining 16 houses were disposed by way of sale. Another 15 flats were also still available and these were allocated on the points system.

18. VALLETTA ROAD PROJECT

During 1979 40 evictees from Due Balli Area who were affected by the Valletta New Road Project were provided with alternative accommodation both in Government owned and private requisitioned premises in Valletta.

19. ST ANGELO ROAD PROJECT AND VITTORIOSA SLUM CLEARANCE PROJECT

About 80 Government evictees affected by St Angelo Road Project and Vittoriosa Slum Clearance Project were provided with alternative accommodation in Government or private requisitioned premises.

20. OKELLA AGIUS

Alternative accommodation was provided to families living at Okella Agius in order to carry out modifications of the complex. These rehabilitation works are now completed and all the families have already been removed to the modified and enlarged new apartments. These new apartments can accommodate half of the former number of lettings. The remaining vacant apartments will

be allocated in due course.

It is also being planned that tenement house at 21, West Street, Valletta, be converted into modern flatlets.

21. FINANCIAL POSITION

From the day of institution on 11th October, 1976, to 31st December, 1979, the Housing Authority sustained all the expenses from the votes of the Housing Department.

During the same period the day to day administration expenses of the Authority amounted to a total of £M103,808.

The expenditure covering the current financial year from 1st January, 1980, up to 30th September, 1980, was £M38,404 to meet administrative expenses which includes £M19,000 provided for in the public account in the approved General Estimates covering period 1st January, to 31st March, 1980. Also £M10,376 relative to subsidised interests was paid to Lohonbus Corporation Ltd. The Authority received for this period £M1,971 resulting from the annual ground rent of the Home Ownership Scheme Plots. The sale of houses either vacant or occupied yielded an amount of £M613,546. Since the Housing Authority is constructing blocks of unit flats, the Capital Advances for this project is £M2,160,000 - Vote XIII and Vote XVII - Item I Advances to the Housing Authority up to 31st December, 1979 and £M1,200,000 for period 1st January, 1980, to 31st December, 1980.

From 1st January, 1980, to 30th September, 1980, Capital expenses amounted to £M344,560. Government has signified the intention of refund of proceeds from sale of houses to offset the advances made.

Should the Authority not be in a position to meet recurrent administrative expenditure, the Ministry of Finance will take the necessary measures to finance the Authority with further funds.
